Your step can open the Dialogue and shape the future.

Fukushima's Voices, for the Future.

Born after the 2011 nuclear accident, the Fukushima Dialogue has brought residents and experts together 26 times, earning recognition in Japan and worldwide.

This **December** in Okuma, the **27th Dialogue** will focus on “**Impressions of Hometown-Voices from Fukushima Residents: Where do we come from, and where are we going?**” People from Japan and abroad will share testimonies and build connections.

Your support makes it possible.

Every contribution helps us:

- Record and translate testimonies,
- Bring young people to the Dialogue,
- Carry Fukushima's lessons to the world and future generations.
